

PROFESSIONAL SUMMARY

Product-focused engineer & analyst with 2+ years of experience owning the end-to-end product lifecycle across AI, EdTech, FinTech, and GovTech products from customer discovery, market research, and product strategy to prototype development, experimentation, product analytics, and iterative feature delivery. Built and launched digital products for my startup adopted by 2,000+ users, generated ₹20L+ revenue per cohort, and reduced operational effort by up to 75% through data-driven product decisions and AI-enabled automation. Skilled in product strategy, roadmap planning, feature prioritization, user research, product analytics, Agile execution, stakeholder management, SQL, Python, and KPI development, with a strong focus on delivering measurable customer and business outcomes.

WORK EXPERIENCE

Co-Founder & Product Lead | BeyondTech - Early-Stage EdTech Platform | [\[Website\]](#) Dec'24-Present

- Owned end-to-end product lifecycle of AI-powered EdTech platform, led customer discovery, competitive analysis, MVP development & go-to-market execution, acquiring 2,000+ users across NSUT & DTU within first month.
- Designed and prioritized CRM, & student engagement features by analyzing user behavior & stakeholder feedback, managing 1,800+ qualified leads, improving paid conversion to 30% and generating ₹20L+ revenue per cohort.
- Defined product metrics, automated assessment and feedback workflows using LLMs, NLP and Python, reducing content production costs by 75% while improving product scalability and operational efficiency.
- Collaborated across engineering, business and academic stakeholders to prioritize features, iterate prototypes, validate product hypotheses and deliver customer-centric improvements through an Agile product development process.

Financial Market Analyst | [Futures First](#) | [\[LOR\]](#) Jan'25-Present

- Leveraged product analytics and quantitative modeling to evaluate market behavior, customer order flow, and pricing signals, generating 150+ data-driven trading strategies per week through SQL, Python, and advanced Excel.
- Defined, tracked, and analyzed 12+ key performance indicators (KPIs) including VWAP, liquidity, trading volume, LTQ, and execution efficiency, enabling faster decision-making and improving trade-selection efficiency by 50%.
- Built analytical frameworks by combining macroeconomic indicators, volatility, historical trends, and real-time market data to identify patterns, validate hypotheses, and support high-impact business decisions for a \$100K proprietary trading portfolio.

PRODUCT CASE STUDIES

POP PULSE - AI-Powered Customer Support & Order Intelligence Platform | [\[PRD\]](#) | [\[MVP\]](#) Jun'26

POP, a SaaS platform that helps e-commerce brands optimize post-purchase customer experience, order tracking & returns.

- Identified a high-impact product opportunity by analyzing 500+ customer support interactions and mapping the end-to-end WISMO (Where Is My Order) journey, uncovering 6 major friction points responsible for repeated support requests and defining an AI-first product strategy to reduce customer uncertainty.
- Owned product discovery and solution design, conducting competitive benchmarking across 8+ logistics and e-commerce platforms, defining 20+ functional requirements, prioritizing an MVP roadmap, and designing 12+ proactive notification triggers, AI-powered ETA prediction, and automated escalation workflows.
- Built a production-ready Streamlit MVP integrating LLMs, predictive delivery intelligence, and real-time analytics dashboards, defining 8+ North Star and product success metrics including ticket deflection, CSAT, feature adoption, notification CTR, and support response time, with the solution projected to reduce WISMO tickets by 35–45%, improve CSAT by 20%+, and save 1,000+ support hours annually.

Zomato Secure - Privacy & Consent Management Platform | [\[PRD\]](#) | [\[MVP\]](#) Jun'26

Zomato, India's leading food delivery and quick commerce platform, redesigning its end-to-end privacy and consent experience.

- Owned end-to-end product discovery by translating 20+ DPDP Act provisions into product requirements, conducting persona development, customer journey mapping, root cause analysis, and competitive benchmarking to redesign Zomato's privacy and consent experience.
- Designed a scalable Privacy Center by defining 15+ functional requirements, prioritizing 10+ consent management features, developing an MVP roadmap, product workflows, and phased rollout strategy while balancing regulatory compliance, user trust, and customer experience.
- Built an interactive Streamlit MVP with 7+ product KPIs and North Star metrics, targeting <20s consent completion, 99%+ DSR SLA fulfillment, <72-hour breach notification, +8-point Privacy CSAT, and supporting A/B rollout planning for production-scale implementation.

EDUCATION

B.Tech : Netaji Subhas University of Technology, Delhi: Information Technology, 8.95 CGPA, Dept. Rank 1, CVSPK Scholar
Class XII: Kulachi Hansraj Model School, Delhi: CBSE, 95.4%, Scholar Badge recipient for 7 consecutive years

POSITION OF RESPONSIBILITY

Vice-President: Nakshatra | The Astronomical Society of NSUT Jul'23-Jul'24

Served as the primary organizer for the Triathlon event, coordinating 150+ participants, generating over 80K social impressions, securing 10+ sponsors (GAIL & Boat), contributing to a record-breaking 1,000+ registrations for Resonanz.
