

PROFESSIONAL SUMMARY

Data & Analytics professional with 2+ years of combined experience delivering end-to-end **analytics, data engineering, business intelligence** etc. across proprietary trading, product, and early-stage technology environments. Proficient in **Python, SQL, Power BI, Excel, PostgreSQL, Streamlit, ETL pipelines, data modeling, dashboard development, API integrations, KPI reporting, and LLM-powered workflows**. Built and deployed 6+ **production-grade data products**, including a **natural-language-to-SQL analytics engine**, a real-time job-intelligence platform tracking **48 companies**, a credit-risk decision dashboard & an automated notification pipeline. Applied financial-market analytics to support a **\$100K proprietary trading portfolio**, while contributing to product and data strategy for an early-stage ed-tech platform. Skilled at translating complex datasets & stakeholder requirements into **scalable pipelines, automated processes, interactive dashboards, and decision-ready business insights**.

WORK EXPERIENCE

Co-Founder & Data Lead | BeyondTech - Early-Stage EdTech Platform | [\[Website\]](#)

Dec'24-Present

- Built & launched a **Python-Streamlit platform** within 8 weeks, acquiring **2,000+** users across NSUT and DTU
- Designed a **CRM and lead analytics workflow** managing **1,800+** qualified leads per cohort, achieving **30% paid conversion** and **₹10L+** revenue per cohort.
- Automated **assessment and feedback pipelines** using **Python, NLP and LLMs**, reducing **content-production costs** by **75%** while supporting product roadmap and **KPI tracking**.

Financial Market Analyst | [Futures First](#) | [\[LOR\]](#)

Jan'25-Present

- Supported **analytics & risk monitoring** for a **\$100K trading portfolio** using **Python, SQL** and **advanced Excel**.
- Engineered pricing and market-analysis models combining macroeconomic indicators, volatility and trading data to generate **150+ actionable strategies** weekly.
- Tracked **12+ trading KPIs**, including **VWAP, volume, liquidity and LTQ**, improving trade-selection **efficiency** by **50%**.

Summer Associate & Data Analyst | Nation with Namu | [\[LOR\]](#)

Jun'24-Aug'24

- Analyzed historical **PM_{2.5}, PM₁₀ and AQI datasets** and built an interactive **Tableau dashboard** covering six pollution sources, reducing manual processing by **60%**.
- Conducted requirement gathering with **15+ government, research and industry stakeholders**, translating findings into analytical recommendations.
- Managed prioritized **Jira backlog** and supported a six-week **Agile delivery cycle**, maintaining **95% sprint completion**.

PROJECTS

Mudrex Events Analytics Engine | [\[Deployed Project Link\]](#)

Jun'26

- Engineered an end-to-end **SQL ETL pipeline** (CTEs) to cleanse, transform, and model event data, standardizing **17 event types into 6 categories**, improving data quality and reducing preprocessing time by **~80%**.
- Built an AI-powered **NL-to-SQL business intelligence engine** (Groq/LLaMA), converting natural-language queries into optimized SQL, eliminating manual query writing and reducing analysis time from **10-15 minutes to <30 seconds**.
- Developed **interactive Tableau/Power BI dashboards** with Streamlit & Plotly for KPI tracking and executive reporting, enabling self-service analytics across **100+ business queries/day** while collaborating in **Agile/Scrum** using **JIRA**.

JobScout | Job-Market Intelligence Dashboard | [\[Deployed Project Link\]](#)

May'26

- Gathered stakeholder requirements and translated them into **functional specifications**, KPIs, and reporting workflows, building a real-time dashboard tracking hiring trend across **48 companies**.
- Designed automated **Power BI/Tableau dashboards** integrating Google Sheets API with data validation and deduplication, improving reporting accuracy to **99%+** and eliminating duplicate alerts.
- Automated stakeholder email notifications and reporting workflows, reducing manual monitoring effort by **95%**, accelerating hiring insights, and delivering solutions through **Agile, JIRA**.

NSUT IMS Notification Pipeline

Apr'26

- Architected a production-grade **ETL pipeline** using **FastAPI, PostgreSQL, SQLite, and PySpark**, automating data ingestion, transformation, and validation while reducing manual processing by **90%**.
- Built fault-tolerant data extraction and exactly-once notification services integrating **Gmail SMTP** and **Firebase Cloud Messaging**, achieving **99.9% pipeline reliability** across scheduled jobs.
- Deployed scalable workloads on **AWS** using **Docker** and **CI/CD**, automating deployments and infrastructure while reducing release time by **~70%** and supporting continuous production operations.

EDUCATION

B.Tech : Netaji Subhas University of Technology, Delhi: Information Technology, **8.95 CGPA, Dept. Rank 1, CVSPK Scholar**
Class XII: Kulachi Hansraj Model School, Delhi: **CBSE, 95.4%, Scholar Badge recipient for 7 consecutive years**

POSITION OF RESPONSIBILITY

Vice-President: Nakshatra | The Astronomical Society of NSUT

Jul'23-Jul'24

- Served as the **primary organizer** for the Triathlon event, coordinating **150+** participants, generating over **80K** social impressions, securing **10+** sponsors (GAIL & Boat), contributing to a record-breaking **1,000+** registrations for Resonanz.
